999-631-301-90 Bulb/Socket Assy
(1.2W Black
or
0.9W Green)

Indicator Lights

Contact Points:
Note how recessed the contact points on the LED are. This flaw had a contact failure rate of ~50% on me. Make sure the contact points protrude slightly above the white plastic by bending in the direction of Orange Arrow, taking care not to break the internal solder.

B8.5D-NWHP B8.5 LED Natural 3900K
Polarity Sensitive
