

# SWITCHING ON/OFF

---

## Switching on/off

There are various ways of switching the device on/off.

### Switching on/off using button

①

- To switch on the device, press button ①.

The device switches on.

- To switch off the device, press and hold down button ① for longer than two seconds.

The device switches off.

### Switching on/off using the vehicle ignition

The device will switch on and off simultaneously with the ignition if it is connected correctly to the vehicle's ignition and if it was not previously switched off using button ①.

You can switch the device on even if the ignition is off.

- Press button ①.

#### **Note:**

To protect the vehicle battery, the device will switch off automatically after one hour if the ignition is off.
