

## Defroster hose

# Defroster hose

### Passenger cars & light-duty commercial vehicles (Prod.type 7768)

A hose that shapes and cuts easily. Recommended for low-pressure or suction applications such as defrosters, air ducts and air intakes.

- Closely woven, rubber-impregnated fabric.
- Strong helical wire increases flexibility.
- Resistant to temperatures from -40° to +93°
- Tear, abrasion and ozone resistant.

Packaging: 1.8 m length per carton. Individually boxed in compressed form.
