TECHNICAL INFORMATION

NO. 8
20.07.1978

Special approval of a trailer load up to 1870 kg
Attachment instructions of the trailer fixture - Model Oris D83
(Rep.-Gr. X7)

Vehicle Type: 928
Model: All

Available as special equipment for the Porsche 928 is a trailer fixture under the Porsche Part Number 928.722.031.02.

Following trailer loads have been type tested within general running allowances No. A333.

Permissable Trailer Load: without brakes (up to 16% grade)
750 kg (1500 lbs).

with brakes (up to 16% grade)
1600 kg (5200 lbs).

Permissable Support Load: 50 kg

Beyond that, a special approval is given up to a trailer load with brakes of 1870 kg and an allowable support load of 75 kg.

This special release is valid, however, only for trailers that are used exclusively for private, appropriate use, such as:

1. Camper
2. Trailers with special attachments for boat transport
3. Special trailers for transport of competitive --
respectively veterinarian-vehicles such as saddle horses.

All other types of trailers are excluded from this special release.

With a trailer load of 1870 kg, grades of up to 12% are traversable.

This technical information is to be used as unobjectionable certification of the presentation of the approval.

The appropriate Model Test Station passes no technical objections against the alterations brought up in this technical information.
