

Getting the boat out of the water for a new bottom paint job and other maintenance work

**New bottom paint job done ready to splash again and
Do more preparation and maintenance work to get her ready to cruise the Bahamas**

Lots of machinery to keep me busy and keep me wrenching from time to time.

The boat cruising plans don't leave much time for the 928 hobby

I do love my 928 GTS and every time I drive it tells me how much fun it is.

The only reason I'm considering to sell right now is my lack of time to keep up with all of my projects.

For those that think there's a better deal out there for them buy it
