

911 HARDTOPS – OPTIONS

- DM.810.IS : HIGH SOUND AND THERMAL INSULATION
The hollow part of the Hardtop is filled with a highly efficient insulating material (invisible).
- DM.810.AR : INTEGRATED SAFETY ROLL BAR
Steel safety roll bar integrated into the hollow part of the Hardtop (invisible), designed to resist a flip of the car.
- DM.810.VE : MANUAL LOCKING KIT (original parts)
This option is necessary for all models with an electric soft-top (964 / 993).
In this kit: 2 male locks + 2 female locks.
- DM.810.JO : DOOR WINDOW SEALS KIT (original parts)
You can remove the seals currently in place on the soft-top to reuse them on the Hardtop. However, we recommend this option to avoid removing and installing the seals every year.
- DM.810.EN1 : 2 INTERIOR CAPS –FRONT LOCKS
These are 2 caps that hide the front locks.
- DM.810.EN2 : 2 INTERIOR CAPS –SIDE FRAMES
These are 2 caps that hide the screws on the side frames.
