R8 Coupe	1/23/13	Order Guide Pages Added (No pricing info)
R8 Spyder	1/23/13	Order Guide Pages Added (No pricing info)

ADDENDUM

The following changes have been made to this order guide for model year 2014:

Model	Effective Date	Modification

A WORD ABOUT LOW ASPECT RATIO AND HIGH PERFORMANCE TIRES

Performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under these circumstances, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car, or their equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices.

For more information on all of these topics, please consult the owner's manual, your local **dealer**, or call **1-800-FOR-AUDI**.
