

New 8-speed Porsche Doppelkupplung (PDK)

Getting more power from an engine is worthwhile only when you know where it needs to go. And how quickly and effectively. The latest Panamera models are therefore equipped with a newly developed 8-speed Porsche Doppelkupplung (PDK), which translates the tremendous drive force of the respective engine into the acceleration expected of a sports car.

Gears 1 to 6 have a sports ratio and top speed is reached in 6th gear. 7th and 8th gear have a long ratio, which helps to keep engine revs low even at high road speeds – for efficient and comfortable driving over long distances. The precise gearshifts take place in milliseconds with no discernible interruption in the flow of power – as you would expect of a sports car.
