

Track Use Guide version 1.0

BAC MONO - TRACK USE GUIDE

This guide has been produced to assist in the preparation and proper use of your vehicle whilst on track. It also provides advise on exactly what adjustments are available to allow you to get the most from your BAC Mono. It should be treated as an introduction to the basics of suspension adjustment and driving dynamics and not a definitive list.

If you are uncertain about any aspect of this manual, please seek advice from BAC before making any changes to your vehicle.

For safe working practices and technical information regarding the car please refer to the Owners Manual for the car.
