

Figure 6.

- 8) Remove the identified lamp by heating its solder connection with a soldering iron.
- 9) Replace the lamp with a new one by soldering the lamp into the circuit assembly.
- 10) Test prior to re-assembly. Figure 7.

Figure 7

- 11) Press the circuit/lamp assembly back into the lens. Figure 8

Figure 8.

- 12) Re-assemble the light assembly
- 13) Re-install light assembly into basket handle
- 14) Re-install basket handle onto decklid
- 15) Enjoy your favorite beverage.

Hope this helps..... Scott
