### Wheel Silver

Porsche Paint Code 9A1 – Sterling Silver Metallic - has been found to be an almost exact match for the wheel silver used on most 996 wheels. Wurth Wheel Silver ([www.wurth.co.uk](http://www.wurth.co.uk)) has also been found to be a good match, and is available in aerosol spray cans. Both these paints need to be finished with a clear lacquer to achieve the correct finish.
