***Artic Silver with Black Leather Interior***

**\$xxK or Best Offer**

**26K Miles**

**Enthusiast Owned**

**Tasteful Upgrades**

**Excellent Cosmetic and Mechanical Condition**

# ***2002 Porsche 911 Turbo 6 Speed Manual***

## **Exterior Condition**

The Artic Silver paint is all original and in excellent condition.

This turbo was previously owned by the founder of Detailer's Domain and received all over paint sealing and paint protection film (PPF) in many areas. The front spoiler PPF is yellowing and should be replaced. Current owner has added PPF on the entire hood and headlights which is in excellent condition.

## **Interior Condition**

The black leather interior is in excellent condition with carpeting, headliner and dash like new.

OEM Carbon Fiber:

- Door Pulls
- Door Pocket Covers
- Center Dash "Horseshoe"
- Climate Control Surround
- Instrument Panel Surround
- Dashboard trim molding groove
- Door Sill Plates (with turbo script)

The carbon fiber options are all like new with no yellowing, chipping or separation.

The painted seatbacks (excellent color match) are like new.

### *Imperfections:*

The driver's side GT3 sport seat shows some minor wear compared to the passenger seat (see pictures) but is in very good condition. There is a small scratch on the center console (touched up) that is hard to see.

The inside door sills have "carbon fiber" appliques to prevent wear for dragging shoes. Despite that, there is some wear on these, thanks to the rubber over plastic construction. There is a small mark in the leather on the glovebox door.

## **Ownership History**

The Porsche has a clean Carfax and four previous owners. The current owner contacted three of the four previous owners before purchase and was very pleased with the care the car had received.

The original purchaser had the car delivered on 3/2002 and sold it with 6,280 miles on 4/2007. The current owner has never been able to contact him/her. But the car was under factory warranty during that entire ownership period.

Next owner is the proprietor of a high end detail shop and he showered much love and attention to this car after purchase in 4/2007. Under his ownership the car received the GT3 seats, GT3 Brakes, GT2 Wheels, carbon fiber galore and the FVD Tune and Steering Wheel. The owner drove the car a total of 7,670 miles before trading it in on 4/2011.

Next owner was a private collector who purchased the car from Town Motors Porsche (Factory Dealer) and kept it from 3/11 to 1/13 in a climate controlled garage, and drove it only 100 miles! Traded it in to Jack Daniels Porsche.

Next owner was a Ferrari fanatic who purchased the car from Jack Daniels Porsche on 1/2013 and drove it 1K miles in about a year. Decided he wanted a 460 instead when a friend offered one. Jack Daniels bought the car back from him and offered it for sale. Car mostly went to concours events in the New Jersey area.

Current owner is a PCA Past President and High Performance Driving Instructor (when not helping to run a technology company). Car was Purchased from Jack Daniels Porsche (Factory Dealer) in April 2014 with 16K miles. 7K enjoyable miles accumulated since purchase, and maintenance and other upgrades performed by the owner. The Turbo was driven often on nice summer days and went to NJ Motorsports Park three times.

## **Service Records**

The car includes all service records for the current and last 2 previous owners. The last oil & filter change was done at 25,481 miles in November of 2015.

## **Mechanical Condition**

Car is in excellent mechanical condition. Porsche Spec N4 Tires have 80%+ tread remaining and are less than 2 years old. No issues with leaks, 2<sup>nd</sup> gear popout or failing rear spoiler.

Recent maintenance includes:

*11/2015 25,481 Miles*

Oil and Filter Change (M1 0w-40)

Alternator Rebuild

*10/2105 25K Miles*

Brake Fluid Flush

New 350mm Sebro Slotted Front Brake Rotors (997TT Size)

*06/2015 23K Miles*

New Air filter

New Spark plugs and 997TT Coils

All four Oxygen Sensors Replaced

GT2 Wheel Liner Supports Installed

GT2 Intercoolers Installed

*5/2015 23,300 Miles*

Oil and Filter Change (M1 5w-40)

New Serpentine Belt

Coolant Fittings Pinned

*5/2014 17,800 Miles*

Oil and Filter Change (M1 5w-40)

New Front Tires

New Front Brake Pads

New AGM Battery

*4/19/2014 17,500 Miles*

New Clutch Accumulator

*1/2013 14,100 miles*

Oil and Filter Change (M1 0w-40)

New Spark Plugs

New Pollen Filter

Headlight Sensor Bracket

High Tone Horn

*5/2011 14K miles*

Oil and Filter Change (M1 0w-40)

## Engine Readout 2016.03.07

The screenshot shows the Durametric Diagnostic Tool interface. The title bar reads "Durametric Diagnostic Tool for Porsche version: 6.3.2.5 ( 1998-2005 Porsche 911 996 )". The menu bar includes "File", "Functions", "Tools", and "Help". The left sidebar shows a tree view with "Engine ME7.8 - Turbo" expanded, and "Information" selected. The main display area shows "Bosch Digital Motor Electronics Motronic 7.8 Turbo" with an information icon. Below this, a list of engine parameters is displayed:

Number of ignitions range 1	8103 / 1047h
Number of ignitions range 2	68 / 843.4h
Operating hours counter	1058.5
Vehicle Identification Number	WP0AB29932S685503
Data version	0041560166106811
Type ID DME control unit	_996TUS02
Order type	996420
Country code	C2
Transmission type	64201695
Transmission number	G9650
Interior equipment	AH

At the bottom of the window, the status bar shows "Durametric Enthusiast Cable is attached" on the left and "Engine ME7.8 - Turbo(ME78T) ..." on the right.
