## Manthey celebrates track day anniversary in September

### 10th event in sequence on the Nürburgring Nordschleife

**Meuspath/Nordschleife** – After the success of the previous nine events the 5 time 24h-winner team this year calls to the one-day track day on Nürburgring Nordschleife for the 10<sup>th</sup> time. The track is exclusively rented for customers and sportingly ambitious Porsche drivers!

On September 24th 80 Porsche owners have the possibility to experience the fascinating „Green Hell“ live. „The participants came so far from Scandinavia and increasingly from Asia next to numerous Porsche drivers from Germany at the last, the managing director Nicolas Raeder confirms. „The largest foreign group traditionally comes, however, from Great Britain. For Porsche drivers of the British islands the Nordschleife is something quite special. “

For one day the Porsche will run over the 20.8 km long asphalt bond of meanwhile more than eighty years old Nordschleife which is the place of the greatest and most important racing victories of the team of Olaf Manthey. Current models from Zuffenhausen will just be represented like air-cooled classics as well as race cars.

Checking the capabilities of the cars get to know finenesses of the Nordschleife and the fast driving under the instructions of experienced Manthey instructors is the professed aim at this driving event at which it doesn't come to any division of the way. “Over years something like a real track day family has formed and it is nice to welcome many friends of the brand Porsche who feel at home on the most beautiful racetrack of the world”, Olaf Manthey underlines.

Manthey is supported by his partners KW automotive, Scherer-Gruppe, P13 Concepts and Michelin!
