840	3-spoke PDK Sports Steering Wheel with Shift Paddles The shift function and shift characteristics of the paddles have been largely adopted from the Porsche RS Spyder. The right-hand paddle is embossed with ?+? for upshifting and the left-hand one with ?-? for downshifting. The high-quality shift paddles are made from die-cast zinc . The shift paddles are sickleshaped and jut up above the steering wheel spokes. This long shape makes it possible to ensure manual gear changes across a wide range of steering wheel positions.		250	XPU 345 844 845 847	Turbo Coupe	\$490
