

Short Test

Bosch Digital Motor Electronics 7.1.1

Current Fault Codes 

P0481:

Fan 2 Control Circuit - No signal/communication, test conditions are not-completed, fault is currently active and is not causing a DTC light

P1116:

- Value below lower limit value, test conditions are not-completed, fault is currently active and is not causing a DTC light

P0513:

Incorrect Immobilizer Key - Implausible signal, test conditions are not-completed, fault is not currently active and is not causing a DTC light

Tiptronic Transmission

Instrument Cluster for Cayenne

No Faults Found 

Porsche Stability Management (PSM/ABS8)

No Faults Found 

Porsche Keyless Entry Security System (KESSY)

No Faults Found 

Airbag

Air Conditioning

No Faults Found 

Vehicle Electrical System

Current Fault Codes 

1494:

Parking light left - Open circuit/short circuit to B+, test conditions are not-completed, fault is currently active and is not causing a DTC light

978:

Left dipped headlamp - Open circuit/short circuit to B+, test conditions are not-completed, fault is not currently active and is not causing a DTC light

979:

Right dipped headlamp - Open circuit/short circuit to B+, test conditions are not-completed, fault is not currently active and is not causing a DTC light

907:

Load management operat. on vehicle electrical sys./DME control module - No additional fault status available, test conditions are not-completed, fault is currently active and is not causing a DTC light

2086:

Corner-sensitive headlight left - Open circuit/short circuit to B+, test conditions are not-completed,

fault is not currently active and is not causing a DTC light

1520:

Rain sensor/light sensor - Implausible signal, test conditions are not-completed, fault is not currently active and is not causing a DTC light

2197:

Potentiometer for footwell lights - Implausible signal, test conditions are not-completed, fault is not currently active and is not causing a DTC light

Steering wheel electronics

No Faults Found

Windshield wiper

No Faults Found

Tire Pressure Monitor (TPM)

Current Fault Codes

1325:

TPM control module (tyre pressure control system)
No signal/communication

1477:

System switched off

Passenger Seat Weight Sensor (AWS)

Gateway

Current Fault Codes

038C:

Wiper motor (with control module)

Doors and Rear Hatch

No Faults Found

Mag Field Sensor / Compass

Transfer Case

No Faults Found

Transverse Lock

Current Fault Codes

1325:

TPM control module (tyre pressure control system)
No signal/communication

 **1477:**
System switched off

Level Control

No Faults Found

Xenon Headlight Left

Xenon Headlight Right

Off Road Stabilizer Rollbar (ORS)

Park Assist

No Faults Found
