Equipment

Because our vehicles undergo continuous development, equipment and specifications may not be as illustrated or described by Porsche in this manual. Items of equipment are sometimes optional or vary depending on the country in which the vehicle is sold. For more information on retrofit equipment, please contact your Porsche partner. Because of different legal requirements in individual countries, the equipment in your vehicle may vary from that described in this manual. Should your Porsche be fitted with any equipment not described in this manual, your Porsche partner will be glad to provide information concerning correct operation and care of the items concerned.

Detailed information about the services

Detailed information about the services is available on the Internet at www.porsche.com/connect.

The Porsche Connect operating instructions

The Porsche Connect operating instructions do not replace the Driver's Manual.

You can find further information about your vehicle in the Driver's Manual.

Pay particular attention to the warning and safety instructions.

Warnings and symbols

Various types of safety instructions are used in these instructions.

Serious injury or death

Failure to observe warnings in the "Danger" category will result in serious injury or death.

Possible serious injury or death

Failure to observe warnings in the "Warning" category can result in serious injury or death.

Possible moderate or minor injury

Failure to observe warnings in the "Caution" category can result in moderate or minor injuries.

Possible vehicle damage

Failure to observe warnings in the "Notice" category can result in damage to the vehicle.

Information

Additional information is indicated using the word "Information".

1. If an instruction comprises several steps, these are numbered.
- ▷ Notice on where you can find further important information on a topic.

Conditions that must be met in order to use a function.

Instruction that you must follow.

Installing & Using

Depending on model, country and equipment, registration processes and features of the Porsche Connect services may deviate.

Registration and activation

Logging in with Porsche ID

- ✓ E-mail for registration at My Porsche has been received.

1. Log in to My Porsche with the Porsche ID.

▶ www.porsche.com/myporsche

On the homepage, an 8-digit **pairing code** is displayed, which you require for the use of Porsche Connect services in your vehicle.

2. Note the pairing code for entry in the Porsche Communication Management (PCM).

i Information

If you have not received an e-mail for registration with the associated Porsche ID, please contact your Porsche partner.

Activating services via My Porsche

Before starting to use the Porsche Connect services for the first time, they must be activated.

1. Log in to My Porsche with the Porsche ID.

2. Select **Services**.

i Information

- In some countries, verification of customer identity is required for use of the embedded SIM card for legal reasons. For this purpose, customer identity must be checked by means of an identification document before activation of Porsche Connect services. Verification is performed by a third-party provider (IDnow) in the form of a video call.
- For further information on activation and personal verification, please also refer to **Videos & Instructions** as well as **Questions & Answers** on www.porsche.com/connect.

Connecting and pairing the vehicle

Establishing data connection via embedded SIM (availability dependent on country)

- ✓ The SIM card reader is **empty**.

The data connection is established immediately when the ignition is switched on.

i Information

If a data connection cannot be established, check the following:

- The vehicle is in an area with sufficient network reception (not a coverage blackspot).
- Restart the PCM if necessary.

Displaying data packages

- ▶ **APPS**  ▶ **Data packages**

Information about the booked data package is displayed.

Establishing data connection via external SIM card

An inserted external SIM card deactivates the function of the embedded SIM (availability dependent on country). Additional costs may be incurred for the data connection (e.g. due to data roaming).

NOTICE

If you use a SIM card adapter, the SIM card may fall out of the adapter due to vibrations and components of the card may become stuck in the drive.

- ▶ Do not use adapters for SIM cards.

Fig. 1: Inserting and removing a SIM card

- ✓ The glove box is open.

1. Insert external SIM card **B** (mini-SIM, dimensions: 25 x 15 mm). The missing corner must be at the front left with the chip facing downwards.

- #### 2. SIM card **with** PIN:
- a. Enter the PIN code of the SIM card and confirm with **OK**.
 - b. Select **Store PIN**.

3. Confirm the prompt for establishing the data connection.

The data connection is established.

- To remove the external SIM card, press on the inserted card and remove it.

Information

If a data connection cannot be established, check the following:

- PCM phone is switched on.
- External SIM card has sufficient data volume and is inserted correctly.
- External SIM card is not damaged and is working properly.
- APN settings (Internet access) are correct. The APN settings can be checked by contacting the network operator.
- Abroad: Data roaming is allowed on the external SIM card and enabled in the PCM.
- The vehicle is in an area with sufficient network reception (not a coverage blackspot).
- Restart the PCM if necessary.

Establishing data connection via external Wi-Fi hotspot

- ✓ Vehicle with embedded SIM (availability dependent on country): PCM phone is switched off.
- ✓ The SIM card reader is **empty**.

- Select  or  in the header (depending on the connection status) ▶ Options  ▶ **WiFi** ▶ **Search for WiFi hotspot**

- Search for a WiFi hotspot (e.g. public hotspot or the mobile phone's personal hotspot) and enter the WiFi access data in the PCM. When entering the data, pay attention to upper and lower case.

A connection is established to the external WiFi hotspot.

Logging onto Porsche Connect in the PCM

A pairing code must be entered in the PCM for some services in order to retrieve personal settings from My Porsche.

- APPS**  ▶ Options 
- Manage Porsche ID** ▶ **Link new Porsche ID** ▶ **Enter pairing code**
- Enter the pairing code that is displayed after you have successfully activated the services in My Porsche.

Remote access authorisation

In order to use services that are controlled via My Porsche or the Porsche Connect App, a remote access authorisation must first be assigned in the Porsche Communication Management (PCM).

- SET**  ▶ **Porsche Connect**
- Select **Remote access authorisation** ▶ **Grant remote access authorisation**.
- Confirm message window with **Grant**.
- Enter the pairing code.

The remote access authorisation can be temporarily deactivated and reactivated via the **Private mode** function.

- SET**  ▶ **Porsche Connect**
- Select **Private mode** ▶ **On**.

Security code

The assignment of a security code is necessary for the use of some remote services via the Porsche Connect App or My Porsche.

- Log in to My Porsche with the Porsche ID.
- Select **User settings**.

The **Security code** must be assigned for use of the following services:

- Opening and locking the vehicle via the Porsche Connect App Please refer to chapter "Lock & Unlock" on page 18.
- Deactivating the Porsche Vehicle Tracking System (PVTS) Please refer to chapter "Switching special mode on and off" on page 20.
- Activation of remote functions for the secondary user

Configuring & Using

Using services via My Porsche

Activated services can be configured and used via My Porsche. (country-dependent)

- Log in to My Porsche with the Porsche ID.
▶ www.porsche.com/myporsche
- Select **Services**.

For further information on using services: Visit www.porsche.com/connect.

Updating content in the PCM

- ▶ **APPS**  ▶ Options  ▶ **Reload page**
The contents of the purchased services are updated.

Displaying service overview in the PCM

- ▶ **APPS**  ▶ Options  ▶ **Service overview**
Information about the services purchased and contract duration is displayed.

Logging out of Porsche Connect in the PCM

- ✓ A Porsche Connect user is created and registered.

1. **APPS**  ▶ Options  ▶ **Porsche ID settings**
2. Select the desired Porsche users ▶ **Porsche ID logout**

Information

- The Porsche Connect services (including the Car Connect services, but not the Safety and Security services) offer a free inclusive period, which varies in length for each services package and country, but is always at least 3 months. Further information about the free inclusive periods as well as subsequent costs and information about the availability of individual services for your country is available online at www.porsche.com/connect or from your Porsche partner.
 - Depending on the country, the Porsche Connect Services can be used via the embedded SIM or via a data-enabled, external SIM card. A separate, fee-based contract with a mobile phone provider is required for the external SIM card.
 - You may incur additional charges when receiving data packages from the Internet, depending on your mobile phone tariff and whether you are abroad. A flat-rate data plan is recommended.
 - The availability, scope and provider of the services may vary depending on the country, model year, device and tariff.
-

Topics

On the following pages you will find topics listed in alphabetical order.

Apple® CarPlay

Apple® CarPlay makes iPhone® apps available in the Porsche Communication Management (PCM). You can use the Siri® voice recognition system to send and answer text messages as well as process voice commands.

Opening Apple® CarPlay in the PCM

Fig. 2: Smartphone tray in the armrest

- ✓ iPhone® 5 or later, iOS® 7.1 or higher.
- ✓ Siri® and Apple® CarPlay have been enabled in the settings of the iPhone® you are using.

1. Connect the iPhone® to the USB port in the smartphone tray in the front armrest.

2. Confirm that you wish to use Apple® CarPlay. Available apps are displayed. Apple® CarPlay is opened.

- ▶ To switch from another function to Apple® CarPlay, select **Apple CarPlay** .

Information

- We recommend that you install the latest iOS® version.
- Only those apps in the iPhone® that are supported by Apple® CarPlay are displayed. For information on supported apps, go to www.apple.com/ios/carplay.
- The displayed content and features of Apple® CarPlay are provided solely by the connected iPhone®.
- When Apple® CarPlay is used, any active Bluetooth® connections (e.g. for telephony, media playback or news) are automatically disconnected. An inserted SIM card cannot be used for making calls while this app is in use.
- Some apps require an active data connection. You may incur additional charges, depending on your mobile phone tariff, and particularly if using abroad. The use of a flat-rate data plan is recommended.

Operating Apple® CarPlay with PCM

All available apps can be operated via the touch display, the rotary push button and the Back button of the PCM.

- ▶ In order to call up the main menu in **Apple CarPlay** , select the Home button  on the touch display of the PCM.

- ▶ To switch to the main functions of the PCM, select **Apple CarPlay**  ▶ **Porsche**.

– or –

- ▶ Select any function (e.g. **MEDIA** ).

Operating Apple® CarPlay using Siri® voice recognition

Activating Siri®

- ✓ Siri® has been enabled in the settings of the iPhone® you are using.
- ✓ The ignition and PCM are switched on.
- ✓ No telephone call is in progress.
- ✓ ParkAssist is not active.
- ✓ PCM voice control is not active.

Fig. 3: Voice control button on control stalk

1. Press and hold the  button on the control stalk.
2. Say your desired voice command.

Information

Briefly pressing button  on the control stalk activates PCM voice recognition.

Deactivating Siri®

- ✓ Voice control is active and waiting for a voice command.
- ▶ Press button  on the control stalk. A fading acoustic signal sounds.

Switching between Apple® CarPlay and use of the iPhone® as an iPod®

If the connected iPhone® is connected as an iPod®, Apple® CarPlay is not available. You can swap between using the iPhone® as an iPod® and Apple® CarPlay using the Device Manager.

1. To call up the Device Manager, select  or  in the header (depending on the connection status).
2. Select the icon **Link**  of the iPhone® you are using.

8

Dictate

You can use the **Message Dictation** service to record a message via voice control.

This service is not available in all languages and markets, and depends on the mobile phone used. Service cannot be used with Apple® devices.

Connecting mobile phone via Bluetooth

- ✓ Mobile phone's Bluetooth® function is activated and visible to other devices.
- ✓ The PCM's Bluetooth® function is activated.

1. PHONE ▶ Search for new phone

2. Select a mobile phone from the device list. A 6-digit code is generated and displayed in the PCM and on the mobile phone.

3. Compare the 6-digit code in the PCM and on the mobile phone.

4. If the codes match, confirm the code in the mobile phone. On mobile phones with a SIM Access Profile (SAP), enter the PIN for the SIM card in the PCM, if necessary. When the phone is successfully connected, the numeric input is displayed in the PCM.

Opening voice control

Fig. 4: Voice control button on control stalk

Activating voice control

- ✓ Ignition is switched on.
- ✓ No telephone call is in progress.
- ✓ Parking aid is not active.

1. Briefly press button  on the control stalk.

A rising acoustic signal sounds and the icon  for voice control appears in the PCM.

2. Say the voice command.

Deactivating voice control

- ✓ Voice control is active.
- ▶ Press button  on the control stalk. A fading acoustic signal sounds.

Other functions of the voice control button

The  button on the control stalk activates different functions, depending on the application:

- Activates the Siri® voice control system through a longer press.
- Interrupts the current dialogue when pressed briefly.

Information

- Navigation announcements and traffic notices are not given during a dialogue.
- With voice control active, list entries can be selected via voice control, the rotary push button or the touch display.
- If the spoken voice command is not understood or if it cannot be interpreted, then voice control responds with the question **Excuse me?** and the voice command can be repeated after that.

Notes on communication using voice control

Note the following points when using voice control:

- Speak clearly and at a normal volume.
- Speak louder when traveling at higher speeds.
- Stress voice commands evenly, without long pauses in your speech.
- Do not speak when the voice control function is making an announcement.
- Reduce disruptive sounds caused by closing doors, windows and sliding roof.
- Only the driver should issue voice commands, as the hands-free microphone is pointed towards the driver's side.

Dictating and reading out messages

You can use the **Message Dictation** service to dictate text messages or e-mails, for example, and play incoming messages from the PCM.

- ✓ Data connection is established.

Z

- ✓ Porsche Connect services are activated in My Porsche.
 - Please refer to chapter "Activating services via My Porsche" on page 3.
- ✓ The connected mobile phone supports Bluetooth® Message Access Profile.
- ✓ Voice control is active.

Dictating messages

- Say the voice command:
Dictate e-mail
– or –
Dictate text message
The dictated message is displayed in the PCM for the user to check.

Reading out messages

- Say the voice command:
Read out (new) e-mails
– or –
Read out (new) text messages
The message is read out.

Finder

The **Finder** is the central search function in the Porsche Communication Managements (PCM) navigation. The destinations can be displayed in the current area, along the route, at the destination or at another location. The selected destination can be adopted as a navigation destination and saved as a favourite.

Fig. 5: Finder

- ✓ Data connection is established.
- ✓ Porsche Connect services activated in the Porsche Connect portal.
 - ▶ Please refer to chapter "Activating services via My Porsche" on page 3.

1. NAV ▶

You can switch between integrated search in the PCM memory and online search in the Internet via the globe and Google icon next to the input line.

2. Icon ▶ Select the desired option:

- **Nearby:** Displays destinations in the vicinity of the vehicle.
- **Along the route:** If route guidance is active, destinations along the route are displayed.
- **At destination:** If route guidance is active, destinations at the destination are displayed.
- **At another location:** Destinations at a desired location are displayed.

The following categories can be searched for:

- **Parking**

- **Petrol stations**
- **Hotels**
- **Restaurants**
- **E-charging stations** (only for E-Hybrid vehicles)

3. Select destination.

Information such as availability, price information and ratings is displayed.

4. Start route guidance to the E-charging station via **Start route guidance** .

Changing settings

Various settings such as sort criteria (e.g. sorting of E-charging stations according to distance) can be selected.

1. NAV ▶ ▶ Options

2. Select the desired setting.

Navigation Plus

Real-time traffic

With the **Real-time traffic** service, the current traffic situation is accessed online in real time and the roads are shown in the Porsche Communication Management (PCM) marked in colour according to the traffic situation.

Fig. 6: Traffic situation marked in map view

The following traffic flow information is displayed:

- Orange lines: Slow-moving traffic
- Red lines: Traffic jams

In addition, notifications regarding roadworks, accidents, black spots etc. are displayed.

- ✓ Data connection is established.
- ✓ Porsche Connect services are activated in My Porsche
 - Please refer to chapter "Activating services via My Porsche" on page 3.

1. NAV ► MAP ► Options ► **Navigation settings**

2. Select **Online navigation services** ► **Online navigation**.

My Destinations

Using My Porsche or the Porsche Connect App, it is possible to store destinations, which can be directly retrieved in the PCM.

- ✓ Data connection is established.

- ✓ Porsche Connect services activated in the Porsche Connect portal.
 - Please refer to chapter "Activating services via My Porsche" on page 3.
- ✓ Pairing code is entered in the PCM.
 - Please refer to chapter "Logging onto Porsche Connect in the PCM" on page 4.

1. Select NAV ► FAV ► **My Destinations**.
The destinations stored in My Porsche or via the Porsche Connect App are displayed.

2. Select destination and then **Start route guidance**.

Information

Online destinations that were stored under **My Destinations**, are deleted after 30 days.

Smart routing

A smart route is created automatically as soon as an identical route is travelled twice.

Activating smart routing

1. NAV ► Options ► **Navigation settings**

2. Under **Smart routing**, activate the function **Smart routing**.

The symbol is displayed at the bottom right of the map.

Accessing smart routing

- ✓ Smart routing is activated.

1. NAV ► MAP

2. Select at the bottom right of the map

3. Select the desired smart route from the list of suggestions.

4. Select **Start**

Information

- Up to three destinations are created and up to three routes are available for each destination. Suggested routes are prioritised according to how frequently an identical route is travelled.
- The traffic situation for available smart routes is displayed depending on the current vehicle position.
- The PCM identifies whether the route is travelled during the week or at the weekend. Recorded smart routes are only displayed at the appropriate time - either at the weekend or on weekdays.
- Opening **Smart routing** stops active route guidance.

Information

Stored smart routes remain stored after the function is deactivated and must be deleted under NAV ► MAP ► Options ► **Navigation settings** ► **Smart routing**.

Online Routing

With the **Online Routing** option, additional online data is used in the route calculation in order to enable enhanced route guidance.

- ✓ Data connection is established.

- ✓ Porsche Connect services are activated in My Porsche
 - Please refer to chapter "Activating services via My Porsche" on page 3.

1. NAV  ▸ MAP  ▸ Icon  (in the header)
2. Select **Online Routing**.

Satellite maps

Under the menu item **Google Earth**, satellite data for displaying aerial images of buildings, roads and terrain can be used.

Fig. 7: Satellite map display

- ✓ Data connection is established.
- ✓ Porsche Connect services are activated in My Porsche
 - Please refer to chapter "Activating services via My Porsche" on page 3.

1. NAV  ▸ MAP  ▸ Icon  (in the header)
2. Select **Google Earth**.

Online Map Update

With the **Online Map Update** service, the navigation system maps can be updated via the Internet.

- ✓ Data connection is established.

- ✓ Porsche Connect services are activated in My Porsche
 - Please refer to chapter "Activating services via My Porsche" on page 3.

Updates for regions that are relevant for you are searched for automatically. As soon as an update is possible, a relevant notice is displayed in the PCM.

News

You can use the **News** service to display selected news feeds (news channels) or subscribed **Twitter** tweets in the Porsche Communication Management (PCM) according to your interests. You can have news and subscribed tweets read out from the PCM using voice control.

Configuring news and Twitter in My Porsche

Five news feed channels are predefined in the PCM by default. Other news feeds can be added individually via My Porsche.

1. Open My Porsche (www.porsche.com/myporsche) and log in using your access data (Porsche ID and password).

2. Select **Services** ▶ **News**.

3. Select the desired option:

- **New** : For adding new news feeds to the list.
- **Search** : For locating individual news feeds in the news list.
- **Delete** : For deleting individual news feeds from the list.
- **Pencil icon** : For editing news feeds that have already been added.

Adding a new news feed

1. Select **New** .

2. Enter the URL of a message portal in the input field.
A suggested list of suitable news feeds is displayed.

3. Continue configuring news feed (enter news feed description) and then select **Save**.

Managing news in the PCM

Fig. 8: Using the voice function for news

- ✓ Data connection is established.
- ✓ Porsche Connect services are activated in My Porsche.
 - ▷ Please refer to chapter "Activating services via My Porsche" on page 3.
- ✓ Pairing code is entered in the PCM.
 - ▷ Please refer to chapter "Logging onto Porsche Connect in the PCM" on page 4.

1. Select **APPS**  ▶ **News** .

2. Select news channel via headline **quick selection** .

3. Select a news item from the list.
The item is displayed in the interaction area on the right.

4. The text can be read out using the voice function via the speaker icon  (Fig. 8). Renewed tapping on the speaker icon  terminates the read-out.

Parking Plus

The **Parking Plus** service enables ticket-free access to evopark partner multi-storey car parks with automatic invoicing of parking fees at the end of the month. You can navigate directly to the available multi-storey car parks via the Porsche Communication Management (PCM).

Installing Parking Plus

1. Select the **Parking Plus** service in the Porsche Connect Store.
2. Select **Request Parking Plus card**.
You are then forwarded to the Internet site of our partner evopark.
3. Select **Order Parking Plus card** and enter the required user details.
The Parking Plus card is delivered by mail.

Using Parking Plus

Fig. 9: Parking Plus

- ✓ Data connection is established.
- ✓ Parking Plus was installed in the Porsche Connect Store.
- ✓ Parking Plus card has been received.

- ✓ Porsche Connect services are activated in My Porsche.
 - Please refer to chapter "Activating services via My Porsche" on page 3.

1. **APPS** ▸ **Parking Plus**
2. Icon ▸ Select the desired option:
 - **Nearby:** Displays Parking Plus multi-storey car parks in the vicinity of the vehicle.
 - **At destination:** If route guidance is active, Parking Plus multi-storey car parks at the destination are displayed.
 - **At another location:** Parking Plus multi-storey car parks at a desired location are displayed.
3. Select Parking Plus multi-storey car park. Parking Plus multi-storey car parks are indicated by the symbol . Information such as parking charge and opening times is displayed.
4. Sort car parks via Options ▸ **Sorting criteria** according to distance.
5. Start route guidance to the car park via **Start route guidance**

Alternatively, Parking Plus multi-storey car parks are also displayed via the **Online Search** in the navigation system. Please refer to chapter "Finder" on page 11. For this purpose, note the symbol .

Porsche Connect App

Various navigation and infotainment functions as well as Car Remote and Car Security services can be operated using the Porsche Connect App.

You can access music tracks with the music streaming function if you have installed the necessary apps or if you have created an account.

WARNING

Setting and operating while driving

Operating and making settings for the app while driving could distract you from the traffic situation. You may lose control of the vehicle.

- ▶ Operate and adjust settings only while the vehicle is stationary.

Installing and using the Porsche Connect App

- ✓ Porsche Connect App is installed on your mobile phone (download from App Store® or GOOGLE® Play Store).
- ✓ Porsche Connect App has been started.
- ✓ WiFi is enabled on the mobile phone.

- ✓ WiFi function is enabled on the PCM.
 - ▶ Please refer to chapter "Establishing data connection via external WiFi hotspot" on page 4.

Fig. 10: Opening the Device Manager

Logging in with Porsche ID in Porsche Connect App

1. Select **Login or Registration**.
2. Enter Porsche ID and password.
3. Select **Login**.

Connecting Porsche Connect App to PCM via WiFi

1. Display the WiFi access data of the PCM and establish a WiFi connection between your mobile phone and the PCM.
2. In the header, select  or  (depending on the connection status) ▶ Options  ▶ **PCM hotspot**
Hotspot name and **Password** of the PCM are displayed.
3. Enter the WiFi access data of the PCM into the WiFi settings on the mobile phone.

Opening app content in the PCM

1. Select **APPS** .
The available content of the Porsche Connect App is displayed.

Transferring navigation destinations to the PCM

- ✓ Porsche Connect App is connected to the PCM.
 1. Select a navigation destination in the app.
 - **My Destinations:** Select destination.
 - **Calendar:** Select a calendar entry incl. address data.
 - **Contacts:** Select a contact incl. address data.
 2. Use the  symbol to add the destination to the **My Destinations** favourites list. Entries that were already added to the favourites list are ticked.
 3. If the Porsche Connect App is connected to the PCM, the content of the **My Destinations** favourites list is transferred to the PCM.
 4. In the PCM, select **NAV**  ▶ **FAV**  ▶ **My Destinations**.
 5. Start route calculation to the transferred destination.

Calendar and music streaming

- ✓ The separate music service app has been downloaded and/or you are registered with the music service. Observe information from the music services provider.
- ✓ Porsche Connect App is connected to the PCM.

1. In the **My Account** app, select ► **PCM services**.
2. In the PCM, select **APPS** ► **Calendar** or the desired music service.

i Information

In the **MEDIA** menu under MyMusic, the user can play back existing playlists and tracks stored offline.

Smart Home

Via the Porsche Connect App, certain Smart Home functions are transferred directly to your PCM and can be operated there.

- ✓ Porsche Connect App is connected to the PCM.

Activating Smart Home

1. Select **My Account**.
2. Select **PCM services**.
3. Select available Smart Home service.

Depending on the selected service, the Smart Home devices can be configured or stored as favourites.

Operating Smart Home devices in the PCM

- **APPS** ► Select desired Smart Home service.

The Smart Home devices that were configured via the Porsche Connect App are displayed in the PCM with their current status and can be operated accordingly.

First Mile / Last Mile Navigation

With the Porsche Connect App, you have the option of navigating from your current location to the vehicle or from the vehicle to the final destination.

- ✓ Porsche Connect App is connected to the PCM.

1. Transfer navigation destination to the PCM.
 - Please refer to chapter "Transferring navigation destinations to the PCM" on page 16.
2. Confirm Push notification with **Yes**.
Navigation from the current location to the vehicle is started.

If the vehicle is parked before the navigation destination is reached, a notification is displayed on the smartphone.

- Confirm Push notification with **Yes**.
Navigation from the current location to the navigation destination is started.

My Car

Fig. 11: Porsche Connect App

- ✓ Porsche Connect App is connected to the PCM.

- ✓ Remote access authorisation is granted in the PCM
 - ▷ Please refer to chapter "Remote access authorisation" on page 4.

Car Control

1. Select **My Car**.
2. Move down in the menu by swiping.

The following vehicle information is displayed:

- **Range**
- **Mileage**
- **Fuel level**
- **Service information**
- **Oil level**

Information

Please contact your Porsche partner for further information on your next required service.

NOTICE

A shortage of fuel may damage the emission control system.

- ▶ Never drive the tank dry.
- ▶ If the warning light has come on, do not take bends at high speed.

Trip Control

Driving data is displayed on three different levels.

1. Select **My Car**.
2. Move down in the menu by swiping.
3. Select **All trip data**.

The current driving data is displayed. The driving data **Since start**, **Since refuelling** and **Total** can be displayed by swiping left/right.

Information

Driving data can be reset in the multi-function display on the instrument panel. For further information on the multi-function display, please refer to the separate Driver's Manual.

Car Finder

The vehicle position and that of the smartphone are displayed on the navigation map.

1. Select **Navigation**.
2. By tapping on the bottom right of the cross hairs, the map is aligned so that both vehicle and smartphone positions are displayed.

By tapping on the vehicle, navigation from the smartphone position to the vehicle can be started.

By tapping on the bottom right of the cross hairs, the vehicle and smartphone positions can also be updated.

Horn & Blinker

The function serves to identify the parked vehicle. The function is only available with the ignition switched off.

- ✓ The vehicle is stationary and the ignition is switched off.
- ✓ The bonnet is fully closed.

- ✓ Remote access authorisation is granted in the PCM
 - ▷ Please refer to chapter "Remote access authorisation" on page 4.

1. Select **My Car**.
2. Press and hold icon  or  for longer than one second.

The horn or direction indicator are activated for three seconds. Activation is confirmed by means of a trumpet or light symbol and a vibration signal on the smartphone.

The horn or direction indicator function can be terminated by actions on the vehicle (e.g. opening the driver's door).

Information

- Please use this function carefully. Neighbours may be disturbed by use of the horn. Country-specific regulations may apply.
- A vibration signal is only emitted if vibration is activated in the general settings of your smartphone.

Lock & Unlock

- ✓ The vehicle is stationary and the ignition is switched off.
- ✓ The driver's door is fully closed.

- ✓ Remote access authorisation is granted in the PCM
 - ▷ Please refer to chapter "Remote access authorisation" on page 4.
- ✓ The security code has been assigned in My Porsche
 - ▷ Please refer to chapter "Security code" on page 4.

1. Select **My Car**.

2. Select icon .

3. Select unlocked or locked lock.

The vehicle doors and the tailgate are unlocked or locked. The alarm system is activated and the lock symbol is displayed when locking.

Car Alarm

If the vehicle alarm is triggered, a Push notification with information on the type and time of the alarm is sent directly to the smart phone.

Location Alarm

A geographical area can be defined. If the vehicle enters or leaves this area, an alarm message is sent.

- ✓ Ignition is switched on.
- ✓ Remote access authorisation is granted in the PCM
 - ▷ Please refer to chapter "Remote access authorisation" on page 4.

1. Select **My Car**.

2. Move down in the menu by swiping (**Alarms and Modes**).

3. Select **Change settings**.

4. Select **Location**.

Geographical areas can be added and activated via the **Add alarm** function.

Stored geographical areas can be edited or deleted via the **Edit** function.

Information

Changes to limit settings affect all app users that access the same vehicle.

Speed Alarm

A limit speed is specified. If this limit speed is exceeded, an alarm message is sent.

- ✓ Ignition is switched on.
- ✓ Remote access authorisation is granted in the PCM
 - ▷ Please refer to chapter "Remote access authorisation" on page 4.

1. Select **My Car**.

2. Move down in the menu by swiping (**Alarms and Modes**).

3. Select **Change settings**.

4. Select **Speed**.

Limit speeds can be added via the **Add alarm** function. One of the added limit speeds can be activated. Stored limit speeds can be edited or deleted via the **Edit** function.

Valet Alarm

The Valet Alarm is a preconfigured and therefore rapidly activatable combination of Location and Speed Alarm.

- ✓ Ignition is switched on.

- ✓ Remote access authorisation is granted in the PCM
 - ▷ Please refer to chapter "Remote access authorisation" on page 4.

1. Select **My Car**.

2. Move down in the menu by swiping (**Alarms and Modes**).

3. Select **Change settings**.

4. Select **Special**.

As soon as the vehicle drives faster than the predetermined limit speed or crosses the specified geographical boundary during valet parking, a notification is sent.

The Valet Alarm can be activated and deactivated.

Porsche Vehicle Tracking System (PVTS)

The functions of the Porsche Vehicle Tracking System (PVTS) can be remotely activated/deactivated using the app.

The following special modes are available:

- **Service mode:** When the mode is activated, no theft alarm is triggered if the vehicle is being serviced (e.g. battery is disconnected).
- **Transport mode:** When the mode is activated, no theft alarm is triggered if the vehicle is moved with the ignition switched off (e.g. on a ferry).
- **Disarmed mode:** When the mode is activated, monitoring of the Driver Card is deactivated so that a missing Driver Card no longer triggers an alarm.

NOTICE

Please use these functions carefully.

- ▶ Activation of the special modes temporarily restricts the security of your vehicle.
-

 **Information**

- The Porsche Vehicle Tracking System (PVTs) vehicle equipment (with or without Driver Card) is affected by the insurance and legal requirements in the relevant country.
 - For further information on the Porsche Vehicle Tracking System (PVTs), please refer to the separate Driver's Manual.
-

- ✓ Remote access authorisation is granted in the PCM
 - ▷ Please refer to chapter "Remote access authorisation" on page 4.
- ✓ The security code has been assigned in My Porsche
 - ▷ Please refer to chapter "Security code" on page 4.

Switching special mode on and off

1. Select **My Car**.
2. Move down in the menu by swiping (**Alarms and Modes**).

Before activating, the security code assigned in My Porsche must be entered.

 **Information**

In certain countries, the maximum duration is restricted due to insurance requirements.

Radio Plus

The **Radio Plus** service offers a combination of the Internet radio integrated in the PCM and hybrid radio, that enables automatic switching between the FM and DAB radio sources and online radio.

Fig. 12: Radio Plus

- ✓ Data connection is established.
- ✓ Porsche Connect services are activated in My Porsche.
 - ▷ Please refer to chapter "Activating services via My Porsche" on page 3.

Opening Internet radio

With the integrated Internet radio, online channels of radio stations can be received.

1. Select **MEDIA** ► **PLAY** .
2. Select icon ► **Online**.

Station categorisation

The Internet radio stations can be selected according to the categories popularity, country, genre and language.

1. Select **MEDIA** ► **LIST** .
2. Select the desired category, e.g. **Genre**.

Activating hybrid radio

The **Hybrid radio** function enables continuous perfect reception. If the DAB or FM reception is subject

to environmental interference, the PCM automatically switches to Internet radio when the function is active.

1. Select **MEDIA** ► **Options** .
2. Activate **Tuner settings** ► **Online station tracking**.

Setting streaming quality

In order to restrict data usage, the streaming quality for the reception of Internet radio stations can be set.

1. Select **MEDIA** ► **PLAY** .
2. Select icon ► **Online**.
3. **Options** ► **Streaming quality**

Risk Radar

With the **Risk Radar** service, the functions **Local Hazard Warning** and **Traffic Sign Detection** are available.

Fig. 13: Risk Radar

Through the networking of vehicles, separate anonymised information from other vehicles can be accessed. The PCM can therefore indicate hazards in advance and offers optimised traffic sign detection through continuously updated data.

- ✓ Data connection is established.
- ✓ Porsche Connect services are activated in My Porsche.
 - ▷ Please refer to chapter "Activating services via My Porsche" on page 3.

Activating online traffic

1. NAV  ► MAP  ► icon  (in the headline)
2. Select **Online traffic**.

Opening messages

- NAV  ► TRAFFIC 

The hazards that are received via Risk Radar are indicated by the symbol .

Voice Pilot

You can use the **Voice recognition online** service to operate selected functions in the Porsche Communication Management (PCM) by voice command.

The **Voice recognition online** service is not available in all languages and markets.

Opening voice control

Fig. 14: Voice control button on control stalk

Activating voice control

- ✓ Ignition is switched on.
- ✓ No telephone call is in progress.
- ✓ Parking aid is not active.

1. Briefly press button  on the control stalk.

A rising acoustic signal sounds and the icon  for voice control appears in the PCM.

2. Say the voice command.

Deactivating voice control

- ✓ Voice control is active.
 - ▶ Press button  on the control stalk.
 - A fading acoustic signal sounds.

Other functions of the voice control button

The  button on the control stalk activates different functions, depending on the application:

- Activates the Siri® voice control system through a longer press.
- Interrupts the current dialogue when pressed briefly.

Information

- Navigation announcements and traffic notices are not given during a dialogue.
- With voice control active, list entries can be selected via voice control, the rotary push button or the touch display.
- If the spoken voice command is not understood or if it cannot be interpreted, then voice control responds with the question **Excuse me?** and the voice command can be repeated after that.

Notes on communication using voice control

Note the following points when using voice control:

- Speak clearly and at a normal volume.
- Speak louder when traveling at higher speeds.
- Stress voice commands evenly, without long pauses in your speech.
- Do not speak when the voice control function is making an announcement.
- Reduce disruptive sounds caused by closing doors, windows and sliding roof.
- Only the driver should issue voice commands, as the hands-free microphone is pointed towards the driver's side.

Weather

With the **Weather** service, weather information, e.g. at the destination or directly on the navigation map, can be displayed in the Porsche Communication Management (PCM).

Displaying weather

Fig. 15: Get weather forecast

- ✓ Data connection is established.
- ✓ Porsche Connect services are activated in My Porsche.
 - ▷ Please refer to chapter "Activating services via My Porsche" on page 3.

1. **APPS** ▶ **Weather**
 2. Icon ▶ Select the desired option:
 - **Nearby:** Displays weather information in the vicinity of the vehicle.
 - **At destination:** If route guidance is active, weather information at the destination is displayed.
 - **At another location:** Weather information at a desired location is displayed.
- ▶ In order to display weather information on the map, select **NAV** ▶ **MAP** ▶ Icon (in the header) ▶ **Weather**.

Updating display

- ▶ **APPS** ▶ **Weather** ▶ Options ▶ **Reload page**

In addition to the option, the time of the last update is displayed.
