This Summer, the Drivers Club and Veltracon Lifestyle are teaming up to offer a unique driving experience paired with fine luxury hotels & dining across the Swiss Alps.

The itinerary will take the participants to the cities of Lucerne, Zürich, Andermatt, Crans Montana and Geneva, whilst driving some of the most thrilling and scenic roads in the world like the Furkapass.

Along the three-day drive, our guests will experience carefully selected 5-star SPA & wellness hotels like the Chedi in Andermatt, the Crans Ambassador in Crans Montana as well as Villa Honegg near Lucerne. One of the highlights will be the factory visit of one of Switzerland's finest watchmakers.

We're teaming up with one of the finest luxury carmakers to add additional excitement to this event. You'll be able to test the limits of your car when we spend a day driving on a private airfield.

The rally will be limited to 25 participant cars (max. 50 guests). We intend to offer the possibility for guests to drive their own cars or take one of the cars made available for the rally.
