PMBC-ADJ SERIES

INTRODUCING THE NEW ADJUSTABLE BATTERY CHARGERS

Advanced switch-mode design Provides a cleaner, more reliable power source than using a standard charge Fully-regulated DC output prevents overcharging of the battery and provides precise control to maintain the necessary battery voltage during complex service and reflash Multiple protection features for a long, trouble-free life.

Our new LK ADJ Battery chargers are designed to meet stringent voltages required for properly charging & maintain any vehicle battery type. Adjustable power supply mode from 13.0V - 16.5V for reflash diagnostics or reprogramming

STANDARD FEATURES INCLUDE:

- 3 STAGE SMART CHARGING
- FIXED OUTPUT POWER SUPPLY MODE
- VARIABLE VOLTAGE ADJUSTMENT 13VDC TO 16.5VDC
- 15' CABLE SET INCLUDED
- WORKS WITH ANY BATTERY TYPE
- LED STATUS INDICATOR LIGHT
- INTERNALLY MOUNTED COOLING FAN
- 2 YEAR WARRANTY
