

# Letter of Paint Certification

Advanced Detailing LLC certifies the paint on this 1996 Porsche 911 4S Coupe, VIN #WPOAA2991TS320967, to not be the original paint (minus the passenger door). This is based on an inspection of paint thickness, which measured on average to be 7.2-15.7 mils thick (passenger door measured 4.3 mils), however it is the correct color code of 707 Shwartz Black. In addition to paint thickness, it further shows evidence of a repaint by way of orange peel and tape lines. The paint is a clearcoat/basecoat paint, which is also correct for the year, make and model of this vehicle. Photos are available as evidence to show where the repaint occurred. The wheels have also been repainted.

The repaint is of good quality and any defects are barely noticeable except to the trained eye. The color is correct and in good shape. No sanding marks are visible, just some minor wash scratching. No signs of body work are evident. Overall, the paint is in excellent shape.

Sincerely,

Justin W. May
